

List Enhancement

- The list enhancement project takes the membership lists of participating groups, matches them with the public state voter file, and returns your list to you, “enhanced” with new data. Participating groups receive the following information for each registered voter on their own membership list: age, gender, phone number, congressional and state legislative districts, county, voting precinct, political party registration, frequency of voting, and more. **CONFIDENTIAL! FREE!**
- Contact Carrie Clark with any questions or to sign up to participate. Submit a signed contract to Carrie Clark at fax: 919-839-0006 or carrie@nclcv.org as soon as possible. Data must be submitted to LCVEF by April 9 via FTP (preferred) or email.
